As per my knowledge my cable was broken because it came out but he said your cable is good only spring is broken, which was clearly visible in two pieces.

Dear Facebook Friends,

If you are looking for any kind of service, from plumber to electrician, this is the place to go! I have used them recently to fix my garage door and the overall experience was EXCELLENT! The garage door technician came on time rather 10 minutes before time, Very prompt service, highly skilled, very professional, very competitive rates and above all very honest person (which matters a lot to me).

The guy was so honest if he would like to cheat me he can easily be. As per my knowledge, my cable was broken because it came out but he said your cable is good only spring is broken, which was clearly visible in two pieces.

I had a service from [fixedprice.ca](#), very reliable, as name indicates its fixed, no more surprises after they finish the work. you know upfront how much it would cost which everyone likes that sort of style.

Also working mode is too good. once the date of commitment is made they stick to it.

I would definitely recommend for anyone across GTA 😊

I had POTLIGHTS and Washroom reno from them.

Good job keep it going.
